

## FOUR DECADES, TWO WOMEN, ONE EXTRAORDINARY OIL.

Nina Obrecht founded NIIA Inc. in 2020 to bring Riciniol to North America.

But the story began in 1983.

Molecular biologist Olga wanted to help her daughter's severe skin problems. She knew **castor oil** could heal—but it was messy and hard to use. So she created a **better, less goopy** version—**Riciniol**.

This multipurpose formula delivers **all the benefits of castor oil—without the mess.**

Over time, Riciniol expanded into specialized blends for **aging, rosacea, eczema, eye health, and baby skin.**

**CLINICALLY TESTED, PATENTED, AND BACKED BY DECADES OF RESEARCH, RICINIOL IS TRULY THE SUPER CASTOR OIL.**
